

Barbara Homan

4/8/2026

Dear Residents, Families and Friends,

As part of our communication, we would like to update you on the facility Covid status. We had 3 residents test positive. This puts us into outbreak mode. We are in contact with the Department of Health on a daily basis.

All departments are working diligently to ensure the safety of our residents, staff and visitors. We are following a strict regimen of Infection Prevention Practices. This includes ramped up disinfecting and cleaning, testing staff and residents per DOH guidelines, and ensuring that all personnel are wearing proper PPE. Covid positive residents are cohorted and isolated, with separate facilities.

We ask that you do your part in keeping everyone safe:

- Do not visit if you are experiencing Covid-like symptoms or have tested positive for COVID.
- Complete the screening at the kiosk in the lobby.
- Wear a face mask.
- Pay attention to the signage on a room or unit prior to entering.
- If you do become symptomatic at home and have been at the facility within 48 hours of becoming symptomatic and/or Covid positive, please notify the facility.

If you choose not to visit and would like to FaceTime your loved one, please call the facility and ask for the activity department.

By entering the facility, you are doing so with the knowledge that you may be at risk of being exposed to Covid. Feel free to email me at jrosenberg@pccumberland or call the facility with any questions.

Thank you for your cooperation.

Josh Rosenberg,

Administrator
